SOLDIERS' BANQUET .- The Van Wert Guards

The members of the Company, ninety-three in number, were, with their guests, ranged by the sides of a long and richly laden table in the hall, and partook of the good things spread before them with a keen zest, while their sparkling eyes and cheerful words showed that they were not forgetful of the fair ones whose bounty they were enjoying.

The repast being concluded, the following toasts were read and received with enthusiatic

1. Our wives and sweethearts (sweeter than these their contributions) are the peculiar objects of our solicitede as soldiers.

2. The ladies of Van Wert—God bless them! In peace they comfort us—in war their tender sympathy is justly appreciated. Their kindness and courage shall other us on and on, and the contributions shall beach upon our banner.

until victory shall perch upon our banner.

3. The Union! Though beset with traitors and shaken to its very centre, it shall still be sustained. May the victory of its present defenders

be as glorious as that of its founders.
4. O. V. M. Though as citizen soldiers, our avocations lie in industrial pursuits, yet when called upon to serve our country, we cheerfully respond, and will maintain our rights, though rivers of blood flow on our tracks, until the last enemy of the Constitution and the Union shall be exterminated, or brought to repentance.

 The Van Wert Boys!—While they iove boiled pork, may their conduct be such that, when they return home, they may receive no The Press of Columbus-always true to the Union! May the time soon come when the liberty of the press shall be abridged in no place

The Hawken Family Band, from Springfield, played, in military costume, some fine airs his resolution of last night, to the people, on the at the west front of the State House last evening-Accustomed as we are in these times to martial music, the performances of this Band were unusually attractive.

TRations are to be furnished to the troops at Camp Goddard, near Zanesville, by Messra. STENGER and Fox, at the rate of \$14 88 per hundred.

IF While passing up street we met with sev eral of our worthy Military Officers, wearing their splendid uniforms, and after inquiring for the manufacturer of these most beautifully made suits, they told us they had them made at the well known "Capital City Arcade," superintended by Mr. MARCUS CHILDS. These military gentlemen assured us that Mr. CHILDS has the best and largest assortment of cloth adapted for military purposes, of any house in the city, not to report an ordinance of secession from the and excels all his competitors in regard to low State, but in favor of the counties in Western and excels all his competitors in regard to low prices and superiority of material. By instituting further inquiries, we ascertained that Mr. CHILDS has made a great many of these unijors, Captains, and First and Second Lieuten-

The perfect fit of these suits satisfied every one of these gentlemen, as the cutter, Mr. MUNTZIE, at Mr. CHILDS' establishment, has had several years' experience in France in getting up Military Uniforms.

For your own benefit, we would, from what we have seen, advise you to go to the Capital City Arcade and leave your measures for Uniforms, as you will not fail to meet with entire

Soldiers' Banquet.—The Van Wert Guards, (Company E, of the Fifteenth Regiment) under the command of Capt. Clark, partook of a magnificent banquet, yesterday afternoon, in the dining hall at Camp Jackson, belonging to Messrs. TELEGRAPHIC

REPORTED FOR THE STATESMAN

Dispatches from Washington. Washington, May 15 .- Gen. Butler's Baltimore proclamation has been emphatically approved by Gen. Scott.

It is probable that Marshal Kane, of Balti-more, will shortly be arrested. A spy has been captured, having dispatches concealed in the panel of his carriage, for Gen. Lee, the Virginia rebel commander.

It is understood that the Government is fully

prepared to protect the Union men of Northern Virginia at any moment when its assistance is The assurances that the Administration vigorously prosecuting its measures against the nsurrectionary States, have a substantial basis. All the members of the Cabinet, together with the President, are animated by a common prin-

ciple in furthering the plans for the consumma-tion of the Government policy.

An increased stimulus, however, was applied to day. A committee of prominent gentlemen from the city of New York had a long interriew with them, and the result was their consent to accept the services of fourteen addition-

al regiments from New York. This meets with the concurrence of Lieut. Gen. Scott. The committee urges more prompt and effective measures, with no halt in the proeedings, and it appears from their private conversations, that the supply of money to support that incresed force is a matter which should occasion no concern to the Administration.

A report is current that an engineer officer has discovered that Virginians are throwing up defences within spy glass view of Washington. This may be a repetition of a former un-founded rumor. At all events, if it should be confirmed, it is not at all probable that the government would remain an indifferent observer of the proceedings.

It is also valuable for table and stand tops, manticpleces, monuments, and an endless variety of other articles of staple use. The process of applying the enamel is simple, while the articles enameled will command a ready sale, affording large profits. Responsible parties may procure licenses for manufacturing under the patent for any city or prominent town in the United States, by applying to the subscriber. A small tariff on the articles manufactured will be required for the use of the invention. Circulars giving full particulars will be forwarded to all applicants.

The superior merit and beauty of this enameled building material to anything in use has the unqualified indersement of many of the most eminent architects and scientific men of this and other cities.

Prof. Wood: Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chroaic disease, at tended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short, it is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently. I feel anxious to perseverve in its use, and being destitute of means to purchase any more, I would ask thee if thee woulds not be willing to send me an order on thine agents for a bottle, and receive to thy ANTI-RHEUMATIC BAND? PROF. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State ot New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray.

Office,

the year 1852, while attending the State and National Law School of the State ot New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair would again be restored. I was ferced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollard worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratifude for your labor and skill in

reliable business men to secure a profitable manufacturing business, requiring but a small capital in its
establishment and pro-secution.

The manufacture consists in the application of a peculiar composition or ename it o common red bricks, and
a variety of other building material, ornamental architectural finishings, ceilings, tiles for floors and for
roofing.

This enamel may be tinted of any color, from the
purest white to the deepest black, with all the colors
and shades between. It imparts to the articles to which
it is applied a hardness and durability almost incredible,
and a beauty surpassing that of the rarest and most costly
of the variegated marbles, and, unlike them, is impervious to moisture, and will never fade, stain, or deteriorate, costing but a fractional part of the price of ordinary
marble.

It is no value ble for the and event the second or the second or the price of ordinary
marble. A. M. LATTA, Attorney and Counsellor at Law. Depot, 444 Broadway, and sold by all dealers through-Depot, 444 Broadway, and sold by all dealers throughout the world.

The Restorative is put up in bottles of three sizes, vis:
large, medium, and small; the small holds ½ a plot, and
retails for one dollar per bottle; the medium holds at
least twenty per cent. more in proportion than the small,
and retails for two dollars a bottle; the large holds a
